

Technology & Engineering- Powered Applications

In-depth Guide

Technology & Engineering – Powered Applications

As a graduate, you'll follow a structured programme working with a range of clients and technologies. Highly diverse, this work will span the delivery lifecycle, from initially shaping a project through to design and technical delivery. During the programme, you'll also benefit from a number of training modules designed to develop your productivity and technical skills. As you progress, your Performance Manager will work with you to identify your goals and tailor any additional training you might need. Naturally, we'll provide plenty of support and a blend of development opportunities to help you achieve your potential. We develop technology solutions for clients ranging from financial services to public sector. Solutions Consulting is a dynamic, fast paced place to be.

What to Expect

You will be able to begin to add value to our clients and business from day one. No two projects will be the same, so you'll need the flexibility to work across different technology roles and with a diverse range of people and clients. You could find yourself working in one of the following teams:

Powered Finance

Working with cloud based technologies such as Oracle, SAP, Workday and Microsoft, our Finance Transformation Solution helps clients create a modern and future-ready organisation using leading edge tools, processes and methodologies developed by KPMG. The team works with each client to create a unique solution focussed on their business needs and helps them deliver a smarter and faster finance organisation.

Powered HR

Leveraging cloud-based technologies Oracle, Workday and ServiceNow, our HR Transformation Solution incorporates best practice operating models, tools and processes. This enables clients to focus on adding value by creating a strategic HR function that uses data to support strategy and integrate seamlessly with other functions.

Powered Procurement

KPMG's Procurement Transformation Solution is a next generation cloud solution which helps innovate, adapt and grow with cloud technology. Our experts in this field partner with clients to instil best practice solutions that help drive sustainable change. These solutions include tools, operating models and delivery methodologies based on leading-edge thinking.

Powered Customer

Powered Customer is an outcome-driven business transformation solution that combines deep functional knowledge, proven delivery capability and the use of cloud technologies to drive increased performance, improved customer experience and lasting business value. We help our clients undergo digital transformation with a focus on building capability across Marketing, Sales, Service and Commerce functions.

Powered IT and the ServiceNow Platform Team

KPMG's ServiceNow platform team deliver digital transformation solutions to transform the world of work using the ServiceNow platform. ServiceNow provides a market leading cloud platform for building business applications, and our solutions include Powered IT. Powered IT provides a full transformation solution for IT organisations, including operating models, processes, roles, KPIs and reports, all underpinned by pre-configured ServiceNow ITSM solutions. We have used ServiceNow to transform client businesses across financial services, corporate clients and government sectors and our projects range from short agile deliveries to global transformations.

Why Powered Applications?

One of the fastest growing areas of KPMG, this is a great place to develop your business and technical knowledge. The breadth of our work, expertise and clients means there is always the chance to learn new things. We'll also provide a supportive network for you to maximise every opportunity that comes your way.
