

Audit Intensive Graduate Trainee - James

Transcription

I'm James.

I studied Mechanical Engineering at the University of Glasgow.

I really enjoyed the Intensive Programme because it gave me the opportunity to focus on studying and then to focus on work. I think something that comes with the Empowered Programme is those intervals of work and then study.

But I found having the focus in that first year really suited me.

I've kind of developed in every sense. My knowledge of Accountancy has developed, my softer skills have developed.

I've got a performance manager who checks in with me regularly to make sure that I'm getting the experience that I need to be able to achieve the ACA as well as just making sure that I'm happy at work day-to-day.
