

Audit Empowered Graduate Trainee - Ore

Transcription

Hi, I'm Ore. I'm on the Audit Empowered Programme.

So, I went for the KPMG Empowered Programme because it gives you quite a good balance between work and study.

What I enjoy most about being on this programme is the collaboration that we experience with having the different people in the business working together so we have our Partners, our Directors and our Graduates working together.

I would say do the Audit Programme because it's a well-rounded programme. You get the qualification and you get exceptional work experience.
