

# Suzanne Shenton, Head of KPMG Business Services

## KPMG in the UK

### Transcription

KBS is our KPMG Business Services organisation and we are the home for all our internal teams who play a critical role in driving KPMG's success. Our collective purpose in KBS is to help to grow, run and protect our firm and deliver a great experience across the moments that matter to our people and our clients.

We provide expertise, advice, support and services across a wide range of critical internal activities. In KBS, you'll find opportunities across HR and Learning, Finance and Procurement, Executive Support and Operations through to Risk and Legal, Corporate Affairs and Sales and Marketing. We're always looking for great people to join our team. People who bring new ideas and outside experience as well as a desire to develop new skills. People with a strategic focus and a focus on delivering high quality results. People who are self motivated as well as collaborative team players. Wherever you end up joining, you'll share our passion for enabling growth, driving performance, providing insights and enhancing our firm's brand and reputation.

Our mission statement is clear. Everyday our firm performs better because of how we work together as one team, each the best at what we do. You can look forward to taking on business critical work that makes a difference and as the world around us evolves, you'll help us transform now - and for the future.

We've seen how recent events have changed where and how we work and we've embraced this opportunity for flexibility in KBS. We'll give you the right tools and resources to support you to play a key role in a way that works for you - whether that's working from home, hybrid or from one of our KPMG offices around the UK.

You'll be joining a great community in KBS with access to a wealth of physical and virtual networks and knowledge sharing groups. We celebrate the diversity of our teams and we run regular events to ensure our teams are connected, empowered and informed with formal and informal mentoring and support in place for everyone. We want you to have the opportunity to shine and make a real difference.

The scale of what we do and the fact that we are part of a global network means we offer lots of opportunities when it comes to your ongoing development and progression. We give you the quality of work, training and support to give you ownership of your career potential. My story in KPMG started in 2017 and since then I've had the opportunity to see KBS develop, grow and progress into a high performing internal business services team. Now, I represent KBS on our executive committee and my vision for KBS over the next few years is for us to continue to work together as a connected team, to innovate what we do across the diversity of our services and play critical role in helping KPMG achieve or strategic goals.

I'm excited by the future of KBS to come - I hope you're as excited to join us!
